**Mainline Information Systems Recognized by Wyse Technology  
with the 2007 Rookie Reseller of the Year Award**

TALLAHASSEE, Fla. – At the 2008 Citrix Summit held in Orlando, FL in January of this year, Mainline Information Systems was awarded the 2007 Rookie of the Year Award by Wyse Technology, the global leader in thin computing.

"We are proud of our relationship with Mainline, without question, one of the industry's leaders for delivering desktop virtualization solutions," stated Tarkan Maner, CEO of Wyse. "It has been our pleasure to partner with this phenomenal company, and we are pleased to recognize their efforts with the 2007 Rookie Reseller of Year Award."

Earlier this year, Mainline announced the industry's first bundled desktop solution offering, bringing together all solution components: hardware, software, implementation services and thin clients, creating a comprehensive, easy-to-deploy desktop virtualization solution. Wyse delivers the thin client devices for this unique solution offering.

Mainline's virtual desktop solution allows customers to host individual desktops inside virtual machines that are running in centralized data centers on reliable, fault-tolerant, industry-standard servers. Users access these desktops remotely from a Wyse thin client using remote desktop protocol (RDP).

"With their extensive technical skills and commitment to the customer, we fully expect Mainline to continue in their leadership role well into the future."

About Mainline

Founded in 1989, Mainline began by offering information technology solutions and consulting in the IBM midrange markets. Since then, it has become an IBM Premier Business Partner and global provider of information technology and business solutions with more than 400 employees nationwide. Headquartered at 1700 Summit Lake Drive, Tallahassee, Florida 32317, Mainline provides solutions throughout the United States, Puerto Rico, Canada, Brazil and Mexico. The company may be reached by phone at 850.219.5000 and on the Internet at [www.mainline.com](http://www.mainline.com).

About Wyse

Wyse Technology is the global leader in thin computing. Wyse delivers the hardware, infrastructure software, and services that comprise thin computing,

allowing people to access the information they need using the applications they want, but with better security, manageability, and at a much lower total cost of ownership than a PC. Thin computing allows CIOs and senior IT professionals to reduce costs, manage risk, and deliver access to information. Wyse is headquartered in San Jose, California, with offices worldwide. For more information, visit the Wyse website at [www.wyse.com](http://www.wyse.com) or call 1-800-GET-WYSE.
